Girls Love Rallie

Les Chansons Terribles

SOPA006 – SOPA – June, 2008

“Les Chansons Terribles” is the solo debut of Girls Love Rallie, but he’s far from a spring chicken when it comes to making music. Having played for many years as part of the band My Friend George he has continuously worked on perfecting his own brand of catchy pop tunes. Singing with a voice that’s instantly recognizable as Rallie. It’s dry, but clear and has a personal sit-down-and-let-me-tell-you-something quality. He makes you listen. And then he has got the knack for writing that catchy song. A treat to lend your ear to.

On this Cd you get acoustic songs, rocking anthems with a full band as well as quirky electro-pop tunes. All of the kind that get stuck in your head. Les Chansons Terribles” is an unpretentious and entertaining collection of songs rooted in classic songwriting.

For the recordings Rallie enlisted friends from Figurines, 1234 and Charlie Don’t Surf.
